SELECT COMMITTEE

19-10-16

My name is _____ I am 72 yrs of age.
I have been a patient of Dr. Kiran Phadke for
over 30 yrs treating me for a blood disorder
called Essential Thrombocythemia.

Dr. Phadke is a good man with good principals
& I cannot believe that someone (maybe sour
grapes) has come forward & complained about
his practices.

He is a good doctor, he listens & has only the
patients health the utmost on his mind.

My eldest son contacted Non Hodgkins Lymphoma
at the age of 23 yrs. He is now 52. After
surgery Dr. Phadke & his team treated my
son with chemotherapy for six months, kept
him in remission & his health is still good
till this day.

Thankyou Dr. Kiran Phadke for all your
support & help to me & my family.
Kind regards.
