

**INQUIRY INTO OFF-PROTOCOL PRESCRIBING OF
CHEMOTHERAPY IN NSW**

Name: Ms Eileen Draper

Date received: 25 October 2016

To whom it may concern.

I have been under the care of Dr Kiran Phadke for over twenty years now.

He has been the most wonderful and professional Doctor you could ever have the pleasure to be in the care of. Without his skill and empathy I might not be here today to write this letter. I am distressed to hear of the complaint made against him and would trust his judgement as I have with my life.

I am saddened to think that his reputation or judgement has been questioned in any way and can only imagine the distress it has caused him as it causes me.

I have a check-up in the near future and only want to be in the care of Dr Phadke.

I can only describe Dr Kiran Phadke in glowing terms as both a person and a medical practitioner and wish him all the best for the future and look forward to seeing him again in his professional capacity

.

Yours sincerely

Eileen Draper
