**INQUIRY INTO COMMERCIAL FISHING IN NEW SOUTH
WALES**

Name: Mrs H Praja

Date received: 8 December 2016

COMMERCIAL FISHING INQUIRY

H. PRAJA

To Committee NO 5.

Dear Director,

The political system deserves to be consumed by fracture politics. Bob Carr & Graeme Richardson sacrificed the health & well being of the people of NSW in 3 elections in order to service the Greens, the inner city elites and the recreational fishers.

At a meeting at Batemans Bay my husband asked Steve Dunn for a definition of an "input control". His answer was "if it stops you from fishing it's working." "We really only have to take out the crews."

That about sums the whole sick ~~story~~ sorry story up. Everything became an input control: - dodgy data, non evidence based scenario science, doom & gloom semantics and ~~unrelenting~~ unrelenting based no consequence management plans that teetered on rotating contract staff often with no experience, inequitable & unjust buybacks and a vacuum of common sense & purpose which leads us to the latest input control - General Purpose Standing Committee NO 5.
