No 119**

**INQUIRY INTO COMMERCIAL FISHING IN NEW SOUTH
WALES**

Name: Mr Sam Ragno

Date received: 9 December 2016

NSW Parliamentary Inquiry

Commercial Fishing Reform

PERSONAL SUBMISSION

NAME: Sam Ragnano

ADDRESS: _____

We have been sustainable for generations my father before me and so on, the reform is only generated by a few greedy people that have too many shares and think they are entitled to get something for them which is a joke they are prepared to ~~see~~ destroy the industry for their own benefit. The start of this reform with the excuse of latent effect they want to get rid of effect well it's all lies. The crabs are sharing for intense 1600kg is a joke and here saying if you have extra shares you can use double some people. Thrippele the traps with out this quota yet the wallis lake will be destroyed by the time it comes in i

can catch it in out there every day there's more effort in the game already and it hasn't even come in yet what a joke.
