INQUIRY INTO ROAD TOLLING

Name: Dr Upasiri de Silva

Date received: 18 February 2017

We are living at this address since 984, We paid TOLL for M 4 till it was abolished. As a Engineer who worked for the Department of Public Works, I don't see any need for us to pay a toll for the new additions for the M4 as we have already paid the TOLL for years. It is the responsibility of the Government to see people get better roads for the Tax they pay and additonal charge as Toll is a bad precedent.
