## **INQUIRY INTO ROAD TOLLING**

**Name:** Mr Peter Philliponi

**Date received:** 20 February 2017

---

Tolls are a form of Vehicle Registration. This is a cost that small business have to pass on to there customer. These cost make our business non viable. It is time that Government realizes that small business cannot pass all there cost on and at the end of the day have to close there operation. In business you cannot pay for anything it needs to be passed on if you cannot do that then Bankruptcy will be the final result. If the Government wants Business in the outer Western Suburbs of Sydney to be viable it needs to reduce there cost and the Toll on the M4 being withdrawn would be a good start.
