

INQUIRY INTO ROAD TOLLING

Name: Name suppressed

Date received: 21 February 2017

Partially
Confidential

Living in the western suburbs I depend on using the m4 for work commute and also private purposes. It is an outrage that I would need to pay to use the roads that are my very right to use as this should be a public good. Roads should be accessible for all people and they don't have to be charged for using them. It's appalling that the government will overlook the medium or low income earners who will struggle due to this m4 toll. Wishing something can be done about this to benefit society as a whole, which would mean being able to use the m4 with unlimited access at no extra charge to the taxpayer. Thank you
