

INQUIRY INTO ROAD TOLLING

Name: Mr Gordon Walbank

Date received: 24 February 2017

Although this submission is under my name I speak for my wife (Barbara) as well. Neither of us has ever been in favour of the privatisation of the various motorways around NSW nor the imposition of tolls. We believe that all infrastructure in NSW should be held by the government and run as a public utility. The placing of tolls or privatisation of utilities only drives the cost of all goods and services upwards - the electricity industry is a classic case. I can see why there was mass nationalism in the UK.
