

INQUIRY INTO ROAD TOLLING

Name: Name suppressed
Date received: 24 February 2017

Partially
Confidential

The tolls were originally used to pay for roads. Now the roads are complete there should be no further tolls. These new tolls DO NOT go towards the roads they go in to private company for shareholders. Tolls do not help pay for the extensions. Forget the tolls and let people travel for free. Bigger the private companies, they didn't build the roads. People should be able to travel easily around the city with out trying to avoid tolls like we do. A trip recently from the Blue Mountains to Gosford cost us \$22.00 We will not be doing that again.
