

INQUIRY INTO ROAD TOLLING

Name: Mrs Beryl Pittman

Date received: 24 February 2017

I believe that the imposition of ANY toll on a NSW road is immoral. The Governments of NSW and Australia get enough money from petrol taxes etc., especially at the outrageous cost of fuel today 143 cents a litre. Remember when it was said that fuel would never reach a dollar per gallon in NSW!! If the companies building the roads did not supply every worker with a Hired Vehicle - and went back to the days of the old DMR when workers went to their depot and were picked up and transported for work each day - enormous cost savings could be made. Of course, those living at the western end of the M4 are still waiting for the 'Mountain Road' to be completed - 203 years after it was commenced. Again I say - TOLLS ARE AND IMMORAL BURDEN FOR TAXPAYERS TO BEAR.
