All toll roads cost the whole community dearly, far beyond the sum payed by their users. It is beyond pathetic that the government of a country with the potential of Australia feels the need to burden its taxpayers with toll after toll then insulting us with the retention of tolls on payed for assets and the reintroduction of tolls on others. Where it not so sad it would be comical that such an unnecessary mess then needs yet more tax dollars for an inquiry. I pay tax. I do not use toll roads. I pay for toll roads!
