

## **INQUIRY INTO ROAD TOLLING**

**Name:** Mr Scott Reynolds

**Date received:** 28 February 2017

---

To the most honorable ladies and gent of parliament. I wish to address the subject of adding tolls to the M4. This is a truly dishonorable and despicable act. To have to pay a toll on a public roadway that was initially bought and paid for by the public purse is ludicrous. Even if a private company were being paid to widen parts of the road this still doesn't given them ownership of said roadway, and therefore they do not have the right to charge us to use it. We will be voting against the government that commits this dastardly act and will tell all those we know to be sane to do the same through our social networks. Be warned this will cost you not us.
