## **INQUIRY INTO ROAD TOLLING**

**Name:** Ms Rhonda Riding

**Date received:** 3 March 2017

---

As I am retired, the proposed cost of the M4 toll will greatly impact on me using the Motorway. Western Sydney/Blue Mountain residents were told that there would NEVER be a Toll returned to the M4 when it was removed. I will be planning my trips to doctors and health practitioners (which are not on direct public transport routes to my residence) to take longer using the Great Western Highway. I'm sure that I am not the only person in the Blue Mountains that feels this way. Also when the previous M4 toll was in service we DID get some rebate back which did reduce the overall cost.
