Our students, teachers and schools need the federal government to deliver additional funding through the Gonski Students with Disability loading because with those funds we could:-

- Employ support staff to assist students within the classroom to more readily access the curriculum through reduced child:adult ratios
- Ensure recommendations from external agencies are supported through programs and additional staff
- Extend the hours of our Learning Support Teacher to support classroom teachers through planning and assistance with programs
- Support teachers to write and implement Individual Learning Plans for students with addition needs as well as creating individual programs and resources to support these plans.
