

**INQUIRY INTO STUDENTS WITH A DISABILITY OR  
SPECIAL NEEDS IN NEW SOUTH WALES SCHOOLS**

**Organisation:** Ms Lisa Jencsok  
**Date received:** 23 February 2017

---

As public school teachers and NSW Teachers Federation members we continue to campaign for the right of every student to receive a public education of the highest quality and for all students to become successful learners.

We are committed to equity and excellence for every student and in doing so assert, as was confirmed in The Review of Funding for Schooling (Gonski Review) that it costs more to deliver on these values for students with disability.

We will not stand by the currently inadequate provision of education to students with disability and the lifelong implications this inequity has.

The National Education Reform Agreement (NERA) and Australian Education Act 2013, acknowledge the requirement for, and commitment to additional funds for students with disability. The NSW government's unwavering commitment to the Gonski funding model paves the way for this investment to be realised.

We stand ready to work with our employer and NSW government in delivering equitable quality education but can only do so effectively when equipped with the necessary tools and supported by a system that is responsive to need.

We offer the following submission as an index of unmet need and a call for equity for every student.

#### **A) Equitable access to resources for students with a disability or special needs in regional and metropolitan areas.**

There are many students with disabilities attending public school. Unfortunately, many of them aren't "diagnosed" with an "official disability" and therefore do not receive any funding. These children still need support!! We have students in the upper grades with very low reading and maths skills. Our school strives to give support for these children by providing one-on-one or small group instruction with teachers and volunteers. This is always an extremely difficult task as we have to take the funding from other areas, rely on volunteers and extra hours from teaching staff. Sometimes there just isn't enough in the budget to support these students as they deserve to be supported. Schools need more funding to help all students with disabilities.

#### **B) The impact of the Government's 'Every Student Every School' policy on the provision of education to students with a disability or special needs in New South Wales public schools.**

#### **C) Developments since the 2010 inquiry by General Purpose Standing Committee No. 2 into the provision of education to students with a disability or special needs and the implementation of its recommendations.**

#### **D) Complaint and review mechanisms within the school systems in New South Wales for parents and carers.**

#### **E) Any other related matters.**

**Name** Lisa Jencsok

**I am a** Teacher
