

**INQUIRY INTO STUDENTS WITH A DISABILITY OR
SPECIAL NEEDS IN NEW SOUTH WALES SCHOOLS**

Name: Name suppressed

Date received: 26 February 2017

Partially
Confidential

As public school teachers and NSW Teachers Federation members we continue to campaign for the right of every student to receive a public education of the highest quality and for all students to become successful learners.

We are committed to equity and excellence for every student and in doing so assert, as was confirmed in The Review of Funding for Schooling (Gonski Review) that it costs more to deliver on these values for students with disability.

We will not stand by the currently inadequate provision of education to students with disability and the lifelong implications this inequity has.

The National Education Reform Agreement (NERA) and Australian Education Act 2013, acknowledge the requirement for, and commitment to additional funds for students with disability. The NSW government's unwavering commitment to the Gonski funding model paves the way for this investment to be realised.

We stand ready to work with our employer and NSW government in delivering equitable quality education but can only do so effectively when equipped with the necessary tools and supported by a system that is responsive to need.

We offer the following submission as an index of unmet need and a call for equity for every student.

A) Equitable access to resources for students with a disability or special needs in regional and metropolitan areas.

Resources in rural areas are extremely limited and require travel of up to 3 hours to access

B) The impact of the Government's 'Every Student Every School' policy on the provision of education to students with a disability or special needs in New South Wales public schools.

As a guardian of a child with a disability my child has received less support since this policy was introduced and the district office specialist assistance was removed. The last at my school only appears to have knowledge of commercial reading programs and direct instruction which was removed in the 1980's as it was not achieving supposed outcomes.

C) Developments since the 2010 inquiry by General Purpose Standing Committee No. 2 into the provision of education to students with a disability or special needs and the implementation of its recommendations.

There appears to have been no action except data collection and when it doesn't say what is wanted it would appear it is ignored.

D) Complaint and review mechanisms within the school systems in New South Wales for parents and carers.

There do not appear to be any and even local member won't assist

E) Any other related matters.

This email was sent from the NSW Teachers Federation website.
