

INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Name suppressed

Date received: 11 May 2017

Partially
Confidential

I have been a resident of Minchinbury for over 25 years and I do not want the incinerator anywhere near where I live or work. This proposed incinerator is just too close to Minchinbury and neighbouring communities....I am deeply concerned that my family and our community will get sick from all the air pollution coming from the plant and all the trucks supplying the incinerator. What about the effects to the wildlife in the area and possible effects if something goes wrong...This company will be incinerating all sorts of hazardous materials I am really concerned if something goes wrong at the plant.....Accidents can happen even with the best technologyThis proposed facility is just too close to Minchinbury. and I want my family to be safe.

The state government has a duty of care to the residents of Minchinbury and surrounding areas. Stop this project. !!!
