

INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Name suppressed

Date received: 13 May 2017

Partially
Confidential

Hi,

I'm against the Energy from Waste incinerator from being built in Eastern Creek as it is bound to produce a massive amount of pollution which can have devastating effects on health, wildlife and the environment.

I'm actually quite surprised that the NSW Government is even considering the proposal. The proposal itself needs to be incinerated.
