INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Mr Rodney Lane

Date received: 17 May 2017

In regards to the plan to build a waste burning facility at eastern creek, I would like to lodge my strong opposition to this plan.

I do not want the area where I live and work to be subject to tonnes of toxic fumes pumped into the atmosphere from the burning of waste.

In an age where climate change and pollution is a real issue, the idea of building waste burning facilities to pump toxic gases into the atmosphere is ludicrous.

I vote NO to this facility being built and I will not be voting for the government responsible should this planned waste burning facility go ahead.
