Partially  
Confidential

I have been a resident of St Clair for about 6 years now. I brought my home here because of its location in western Sydney and because of the area's surroundings.

The smell from the tips close by are getting worse Erskine Park is being developed faster than the current infrastructure can handle already, and now the government want to put a supposed "Green alternative" incinerator within a few kilometers to our houses and our schools. Not to mention the extra traffic that will be in the area because of the incinerator.

I strongly oppose this proposal and will use my power as a voter to vote out any supporting government representatives.

We are not a dumping ground for all of Sydney !

Put this on the North Shore and see if it gets passed.
