To whom it may concern,

I would like to make a complaint about the NSW Government allowing to build an incinerator in Eastern Creek.

It should be 50 km away from society, are we lower than dirt, just finding out it's 2 km away from where I live.

It's atrocious finding that is going to destroy the environment and make us very sick.

I stand by what I said, I think it would be a better idea to not do it at all.
