INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Name suppressed

Date received: 23 May 2017

Partially
Confidential

I do not want the world's largest energy from waste incinerator to be built in Eastern Creek due to the massive amount of pollution that will effect residents and add to pollution levels seriously affecting the health of the local population. Please consider halting this proposal and moving it to a less populated area, it doesn't make sense to put it an already built up area with lots of residents.
