INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Mr Wojciech Wieckowski

Date received: 23 May 2017

I would like to voice my protest against the proposed waste incinerator in Eastern Creek. It will produce a massive amount of pollution, as well as increase the number of vehicles on our local roads, transporting waste to and from the facility.

Local residents already have to put up with the nearby waste disposal facilities and the odours they cause. Building an incinerator within a few kilometres of schools and houses will only make things worse for our community.

If it has to be built at all, consider doing it further away from residential areas. We decided to live here because it is far enough from the city to be rather pollution-free. Now it looks like we will have it at our doorstep.

Regards, W. M. Wieckowski
