

INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Name suppressed

Date received: 23 May 2017

Partially
Confidential

As a resident of Western Sydney, we are sick and tired of being the rubbish tip of Sydney!
For many years we have had to tolerate the continual smell from the many tips in our immediate area. The Council, EPA and state government either can't, won't or are powerless to do anything to STOP THE STENCH.

Now as a government you want to add to the pain and suffering by not only adding additional pollution (I don't believe for a second it will be controlled),but to further congest our already undermaintained, under capacity roads by loading them up with garbage trucks. ENOUGH IS ENOUGH!!!

DO YOUR JOB AND LISTEN TO THE PEOPLE AND STOP TAKING THE EASIEST PATH!
WE are NOT second class citizens.
