INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Mr Mathew Cini

Date received: 22 May 2017

Hi

I'm writing to you cause my family and I strongly objects to the go ahead to the incinerator which is proposed to be built in eastern creek.

My partner and I have purchased a house in near by minchinbury which was hard enough in the world we live in today.

we have all tensions on raising a family here but if the incinerator gets built will be relocating which will be a massive disappointment.

The incinerator will be very visible from our property let alone the noise and pollution that will be in the air around our family home.

I really hope this rubbish idea gets rejected

Regards

Mathew Cini
