

INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Name suppressed

Date received: 24 May 2017

Partially
Confidential

I strongly oppose the building of an incinerator in Western Sydney. Western Sydney residents are not second-class citizens and Western Sydney is not a dumping ground for NSW's problems.

Local residents already have to put up with the nearby waste disposal facilities and the odours they cause. Building an incinerator within a few kilometers of schools and houses will only make things worst for our community.
