My submission is against the incinerator. My family, children, and friends and friends health and well being are important to me. Having the incinerator built and functioning would cause harm to them all. The poisonous emissions it will pollute our air with will
Make everyone sick. Please put a stop to this!!! It will also cause harm to our pets and any livestock that live in and around the area! It's not fair that we are going to be exposed to these kinds of health risks as are our defenceless animals!
