INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Name suppressed

Date received: 25 May 2017

Partially
Confidential

As a resident of Erskine Park, I strongly oppose an 'energy-from-waste' incinerator to be built at Eastern Creek.

Our suburb, and those suburbs surrounding and in close proximity to Eastern Creek already have to endure the odour from the nearby waste disposal facilities. By allowing an 'energy-from-waste' incinerator to be built, it will affect air quality, increase pollution and will affect the health of all residents, especially those who already suffer from health issues such as asthma.

Government needs to think of residents. If they want to build an 'energy-from-waste' facility then they should find an area that's nowhere near residential areas.
