INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Name suppressed

Date received: 26 May 2017

Partially
Confidential

I am AGAINST this so called energy making incinirator. It is close to schools, shops, parks and most of all my family! My eldest has asthma and no one can assure me that the fumes will be safe, that's because they will have toxins in them! Build it in Canberra if it's so important to you! Build it in the pm's backyard and we will see how quick he moves. NO INCINERATOR FOR EASTERN CREEK!
