INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Mr Pravin Rai

Date received: 26 May 2017

My children 7yrs and 5 yrs totally object to having this incinerator built in Eastern Creek.

There is a young residential community in this area and do not want this incinerator close to our homes.

There is plenty of areas on the outskirts of metro Sydney where there is less or no people living in the vicinity.

This is just a ridiculous idea.
