

INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Name suppressed

Date received: 26 May 2017

Partially
Confidential

My family & I are opposed to the construction and operation of an energy to waste facility being built so close to homes and schools. The health of residents is paramount, and no amount of emissions from burning waste will be safe. The air quality in our region is amongst the worse in Sydney and this operation will add to the problem. Notwithstanding the motive behind the whole thing is profit.

We are also concerned with maintenance and safeguards of the facility for future generations. The health of residents should be given priority and no level of emissions from a 24/7 operation so close to homes and schools will be safe.

Please do not allow this energy to waste facility to go ahead.
