INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Name suppressed

Date received: 28 May 2017

Partially
Confidential

We already have enough pollution and bad smells in the area ...the airport is going to create extra and if the incinerator is built it will create a massive health problem. Our area already has to deal with horrible smells on and off, I'm sure the government now knows where that awful smell is from because whenever the locals complain it goes away for a while and you want to hurt us even more?...The value of our homes will decline. Something like this should not be in a built up area, we in the Western Suburbs should not be treated as second rate, our lives and the lives of our families are just as important as the rest of Sydney. Please don't build the incinerator near our homes. We deserve to be treated better than that.
