## INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

**Name:** Name suppressed

**Date received:** 27 May 2017

---

Partially  
Confidential

To whom it May Concern

I would like to lodge my objection in relation to the NSW Government approving a proposal to approve the largest waste incinerator in the world in any area near my residence. Clearly this type of operation will have dramatic effects to my health and that of my family .

The effect on the traffic flows will be shocking . I can assure the NSW Government if this proposal goes ahead I will not be voting for any politician who demonstrates such disregard for the people they are supposed to represent .

I say no to this facility . Place it somewhere else or start looking for new jobs .
