INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Name suppressed

Date received: 28 May 2017

Partially
Confidential

As a local resident I am totally opposed to the proposal to build this incinerator and the resulting pollution that will be introduced into the environment. Is it not enough that local residents have to contend with the putrid stench emitted from the local tip?

As a local resident I find it unacceptable that people health is not the primary focus. The pollution emitted from the incinerator and the added transport vehicles will impact people's health. I feel that western Sydney residents are not given a fair deal and are treated as second class citizens.

I urge you to stop this insane proposal from going ahead.
