## INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

**Name:** Name suppressed

**Date received:** 28 May 2017

---

Partially  
Confidential

Energy waste technology and the proposal for an energy waste facility in Eastern Creek - I object to this proposal as it will be harmful to the environment, increasing pollution, as well as increasing the number of vehicles on the road, transporting waste to and from the facility. As locals we are already putting up with nearby waste disposal facilities and the odours they cause, let me tell you it is disgusting!!!

WESTERN SYDNEY RESIDENTS ARE NOT SECOND CLASS CITIZENS AND WESTERN SYDNEY IS NOT A DUMPING GROUND FOR NSW'S PROBLEMS.
