**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Mr Warren Birkinshaw

Date received: 16 October 2017

It is completely unfair to pay such a low price for solar power, it is a massive disincentive to people like myself who are considering installing solar, in fact it is the main reason I have not done so to date. Rooftop solar is the perfect way to reduce reliance on fossil fuels which are infamous as destroyers of the environment and a major health risk.
