**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Mr Stefan Bruggisser

Date received: 16 October 2017

StefanBruggisser

I think that electricity produced through alternative means must be compensated for in a fair manner once it is fed in the grid. My retailer (origin) does not seem to agree with this. Eventually all power production will be produced through alternative means and hence it makes sense to start it now under fair terms.
