**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Ms Rebecca Nash

Date received: 16 October 2017

I support a legislated fair price for solar.
NSW needs a fair, legislated, minimum feed in tariff to give stability.
The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar;
If governments are prepared to subsidize polluting, disastrous for the planet, coal then surely you can be kinder and fairer to support rooftop solar and renewables, not old polluting sources of power.

Kind regards

Rebecca Nash
