**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Ms Katja Klikauer

Date received: 16 October 2017

Please support a fair price for solar! The environment needs a clean alternative that solar is offering. In order to make it fair, there needs to be a legislated, minimum feed in tariff that represents the true value of solar, recognising the environmental and health benefits as well as the network benefits of rooftop solar.

I will be supporting renewables and rooftop solar instead of old polluting sources of power.
