**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Ms Sandra Walsh

Date received: 16 October 2017

We have had solar power hot water and PVC's for many years now. This we thought was a good investment for our retirement plan and a good move for the environment. Now on a fixed income,can't believe how unfair the electricity prices have become. How disappointing and confusing are the policies the Governments are and have prescribed. Not fair to change the rules midway!.
