

**Submission  
No 23**

**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Mr David Froggatt

**Date received:** 16 October 2017

---

I believe that renewable energy technologies are the only responsible option for our energy needs. It is essential to encourage the adoption and development of these technologies.

Requiring electricity retailers to pay a fair price for solar power encourages people to install photovoltaic systems and helps us move away from the devastating effects of the continued reliance on fossil fuels.
