**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Ms Meredith Brownhill

**Date received:** 16 October 2017

---

Will you please support a fair price payment to solar producers generating power for the grid system?

We, the home owners carry all the set up and maintenance costs of our solar roof top systems. We are contributing environmental benefits to the community & country whereas coal producers are just causing long term costs to community & country.

Australia MUST get serious about renewable energy supplies and in reducing consumption e.g., energy efficient housing that does not need extensive heating & cooling. The housing going up in western Sydney is disgraceful! All trees cut down, NOT one solar roof in sight
