

**Submission  
No 45**

**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Mr Michael Schien

**Date received:** 16 October 2017

---

Over the past three years my 3 KW roof top panels have generated more than 11MW of power for NSW, yet my bills continue to skyrocket due to doubling of grid power prices, and a paltry feed in tariff.

So; I am installing a further 6 KW on both my properties, along with batteries, to insulate myself from further government-approved price increases from this rapacious self serving corporate grab for profit.

I feel sorry for the many families and businesses out there who cannot afford to pay their power bills.
