**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Mr Ari Murad

Date received: 16 October 2017

I support a legislated fair price for solar. My retailer charges me three times as much as I get paid for the solar I export to the grid. NSW needs a legislated, minimum feed in tariff that represents the true value of solar, which means recognising the environmental and health benefits and the network benefits of rooftop solar. A fair feed-in tariff would encourage more people to go solar and reduce the demand on the grid.
