

**Submission  
No 69**

**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Mr David Hogston

**Date received:** 16 October 2017

---

we have had solar for 15 years and this year we installed 8 more panels to try to offset the lack of 60c rebate which we do not fully understand why we still do not have this. people need encouragement to install solar and govt needs to legislate the rebate now . global warming is a reality and govts need to get serious and act responsibly instead of cowing down to short sighted greedy business interests
