**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Mr Darren Johnson

Date received: 16 October 2017

- â€¢ I support a legislated fair price for solar.
- â€¢ Experience with my retailer has been lousy.
- â€¢ I think NSW needs a legislated minimum feed-in tariff that is fair, to encourage home owners in their efforts, with reducing carbon emissions.
- â€¢ I believe that the feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar;
- â€¢ I support rooftop solar and renewables, not old polluting sources of power.
