**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND
PRICES IN NEW SOUTH WALES**

Name: Ms Barry Dollisson

Date received: 16 October 2017

At the moment we are not being paid a reasonable amount for the electricity that we return to the grid. This is clean solar power. We have invested a large amount of money in installing the systems to do this. The price we are charged for electricity is far greater than what is paid for our electricity that we supply back to the grid.

With the state of our electricity generation ability, our electricity must be a bonus to NSW.
