No 97**

**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Ms Kathy Giles

**Date received:** 16 October 2017

---

It should be a given that we are given a fair price for solar and as it stands this is not happening. We are providing power to our retailer for less than half of what we are paying and they then sell it on for their increased price. This is no way to treat people who are trying to make a difference by supporting renewable energy. The feed in tariff should represent the true value of solar and as it stands this is not happening. The retailer should at least match the tariff with what is being charged.

I wholeheartedly support a legislated fair price for solar!
