No 105**

**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Ms Beverley Duncan

**Date received:** 16 October 2017

---

As a solar owner for several years I totally support legislated fair price for solar power. This should represent the true value of solar taking into account the health and environmental benefits of solar power. I have always reckoned the true values of solar energy and even though I am too old to be able to expect repayment of my initial outlay I installed solar. I find it quite outrageous that the feed in tariff is so paltry. I think the negative attitude of most politicians to solar energy totally baffling.
