

**Submission  
No 106**

**INQUIRY INTO ELECTRICITY SUPPLY, DEMAND AND  
PRICES IN NEW SOUTH WALES**

**Name:** Ms Devleena Ghosh

**Date received:** 16 October 2017

---

I support a legislated fair price for solar;  
Since Mr Baird sold the poles and wires on a guarantee of lower prices I have seen my energy costs treble. Well done, Mr Baird.  
NSW needs a legislated, minimum feed in tariff that is fair; we buy solar panels at our own cost and generate electricity that energy retailers exploit while ripping us off.  
The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar; I support rooftop solar and renewables, not old polluting sources of power. I would assume that a government committed to capitalism would like to get something for nothing (i.e. power from the sun) as opposed to costly polluting coal mines.
